## **move technology supports JFV Weyhe-Stuhr U15 soccer team**

JFV Weyhe-Stuhr is committed to promoting performance-oriented youth soccer.

The U15 team gives talented youngsters the unique opportunity to shine in the Northern Regional Youth League. Exciting competitions against the performance centers of the Bundesliga teams allow the athletes to develop their full potential and recommend themselves for a bright sporting future.

move technology is supporting JFV Weyhe-Stuhr's initiative in the 2023/24 season as one of the main sponsors.

### **About move technology**

The German move technology ([www.move-technology.de](http://www.move-technology.de)) is specialized in enabling and implementing high-tech projects in complex partner constellations. The focus is on sustainable clean energy & hydrogen solutions, green mobility, innovative products and technologies, as well as digitization and strategy development in various industries. In particular, move is focusing their activities on international markets such as North America, Southern Africa, Western Europe and Australia.

### **About JFV Weyhe-Stuhr**

The Weyhe-Stuhr Youth Development Association (JFV Weyhe-Stuhr) is passionately committed to sustainably promoting local and regional young soccer talent. They offer talented young players the unique opportunity to play in the highest German U15 division, the Jugend-Regionalliga-Nord. This maximum competition allows them to develop optimally and compete with the best players in their age group on a weekly basis. Their aim is for our players to recommend themselves for junior performance centers or to develop further in order to be a sporting enrichment for the region in the medium and long term.
